

20 Italian MANUFACTURING and 10 CFRP ENGINEER positions

BMW GROUP is looking for permanent employees in the fields of Manufacturing and CFRP. The BMW Group is looking far ahead – and redefining lightweight construction in the automotive industry. The next step forward is the industrialization of carbon fiber production. To achieve this, they are building a team of engineers that will set standards for the future with their impressive knowledge of carbon-fiber-reinforced plastic (CFRP).

Discover interesting topics in CFRP fields in the BMW Group engineering team. They have interesting jobs on offer in the following areas:

- Material, process and procedure development
- Planning process / product
- Chassis and wheel development
- Control technology / alternator management
- Set-up and structure planning
- Logistics
- Quality planning

PROFILE: degree in IT, electrical engineering, mechatronics, mechanical engineering or a similar qualification, fluent German or English.
